

ECM (Vehicle Delivery Service) Ltd - Gender Pay Report 2019

The gender pay gap shows the differences in the average pay between men and women over all positions within a company. The gender pay gap is different to equal pay. Equal pay deals with the pay differences between men and women who carry out the same jobs, similar jobs or work of equal value. ECM is an equal pay employer.

Our Workforce

The chart above shows the total employees split by male employees (93%) and female employees (7%).

ECM's Gender Pay Gap is strongly influenced by the salaries and gender make-up of its HGV drivers. The HGV drivers make-up 75% of the total employees and are 100% male. Relative to other employees the HGV drivers salaries are significantly higher and are incentivised with bonuses.

ECM is an equal opportunity employer but unfortunately there is a lack of females applying for positions as HGV drivers and HGV mechanics.

Pay Gap and Bonus

The differences between male and female employees.

	Mean	Median
Hourly rate of pay	34.9%	36.4%
Bonus pay	91.7%	97.5%

Proportion of Male and Female Employees who receive a Bonus
